

Product Data Sheet

MIDWEST LANDSCAPERS PRO™

PM35 PLANTER MIX

Product Description:

Nationally sought after planting media, PM35 Planter Mix is the ideal choice for new landscape installations, raised bed applications and above grade roof applications. This precise blend of ingredients is nitrogen stabilized with bluechip and provides excellent nutrient and moisture retention while providing superior drainage and resistance to compaction.

Available In:

1.5 CF Bags • 2 CY Totes • Bulk

Ingredient List:

- 1/2" Southern Pine Bark Fines
- Topsoil
- Spent Mushroom Substrate
- Sand
- Bluechip

Technical Data:

Organic Matter Content	9-18%
Particle size passing 3/8"	>75%
Bulk Density (@saturation*)	70-90 lbs/CF

*Saturated weight @saturation is used to determine maximum dead load in a green roof application or other above grade applications.

pH and EC:

pH	5.5-7.0
Electrical Conductivity (Saturated Paste-SME)	<4.0 dS/m

How To Use:

Step 1:
Fill a container
with drain holes
1/4 full

Step 2:
Insert plant

Step 3:
Backfill with soil
around rootball
and press lightly

Step 4:
Water thoroughly
and allow to drain
